Arafat Rahman Sakib

Full Stack Developer

CAREER OBJECTIVE

Highly skilled and experienced React developer seeking a position to contribute my expertise in building innovative and scalable web applications. I am passionate about creating seamless user experiences and leveraging cutting-edge technologies to deliver high-quality software solutions. With a strong background in React development and a track record of successfully leading teams, I aim to drive forward the development process and contribute to the growth and success of an organization.

PROJECTS

Project 1 : Toy Market Website

- Based on all kinds of puzzle toys. There is a Galary section to view the famous toys. And there is All Toys section for viewing all toys.
- Created new toys option for upcoming toys, has a toy Galary to overview all the toys.
- Developed my toys for showing all the toys which are selected and has login system.

Github: Site Link | Client Code | Server Code
